

Urbania panoramic door, 16' x 8' (4.81 m x 2.42 m)

Urbania asymmetrical door in black, 10' x 8' (3.02 m x 2.42 m) with black handle and black anodized aluminum sill (Option)

Urbania & Loft Aluminum Patio Doors

Courage changes everything. That's why our engineers dared to challenge the status quo and set out to reinvent the aluminum patio door. **Offering unparalleled performance and a panoramic view in two or four panel configurations,** Urbania and Loft products will turn your living space into a memorable gathering spot for family and friends where you'll feel at home.

Inifinite Design Possibilities

Urbania & Loft are available in three configurations that are trendy, functional and visually striking both inside and out. Combined with our sidelite and transom system, the possibilities are endless when creating impressively large custom window walls.

Effortless Opening and Closing

Tandem wheels and the available lift & slide mechanism make sliding oversized panels frictionless. Each detail was designed to make the panels light and their opening and closing simple and enjoyable.

Better Thermal Performance

Composite thermal barriers and an innovative sealing system are brought together to offer the highest performance ratings in their categories.

Aluminum's Undeniable Durability

Aluminum's resistance to heat, cold and corrosion, as well as its superior durability make it the best choice for a long-lasting, sturdy, maintenance-free product, especially for dark painted doors.

Enhanced Security

Urbania & Loft doors are engineered to withstand wind loads and the toughest climates. Built with standard multipoint locking mechanisms, these doors will give you the peace of mind you deserve.

Loft lift & slide patio door, 10' x 8' (3.02 m x 2.42 m) black with black handle

Think Bigger!

Loft — Lift & Slide Patio Door

For new construction and renovation projects alike, improve your view and let more light in thanks to the Loft door's oversized glass panels. Its lift & slide mechanism makes it possible to build sizable patio doors using only two panels, for an impressive and uncluttered view.

NEW HANDLE

Lift & Slide

Pivot the sleek, contemporary-style handle to release the three-point locking mechanism and raise the Loft door onto its wheels. Free from the friction of the gaskets and seals, **the large panel weighing up to 300 lb | 136 kg glides quietly and effortlessly, using just one hand.**

The panel lifts 5/16" (8 mm) when the door is unlocked.

The Perfect Frame for a Perfect View

Urbania Panoramic

Urbania's new center opening configuration creates a very large glass surface for a prestigious look. Available up to 16 feet (4.81 m) wide and 9 feet (2.73 m) high, this configuration boasts the largest opening of our product line, making Urbania the ultimate choice for seamlessly integrating exterior and interior living spaces.

Urbania panoramic door in black, 16' x 8' (4.81 m x 2.42 m) with brushed nickel handle (option)

Urbania asymmetrical door in black, 9' x 8' (2.72 m x 2.42 m) with sidelite, transom and brushed nickel handle (option)

A Highly Versatile System

With their asymmetrical configuration, sidelites and transoms, the Urbania and Loft product line is a flexible and modular fenestration system that will give you the freedom to accomplish your most impressive projects.

Available in Revit Format.
 Download the specifications package from our [Professionals](#) page.

Asymmetrical Configuration

Combining an impressively wide fixed sash with the ease of operation of a smaller and lighter sliding door, this configuration fits perfectly with today's trends in home fenestration and bring the "wow" factor.

Sidelites and Transoms

Our framing system allows the addition of very large transoms and sidelites to create glass walls that are as astonishing as they are efficient.

Frame Configurations

Multiple configurations to simplify installation for various wall depths.

		With 2" Interior Aluminum Frame Extension		
	6" Frame  153.91 mm (6")	7¼" Frame  184.15 mm (7¼")	8" Frame  204.71 mm (8")	9¼" Frame  234.95 mm (9¼")
With Nailing Fin	6" Frame with Nailing Fin  115.90 mm (4 5/16") 153.91 mm (6")		8" Frame with Nailing Fin  166.7 mm (6 5/16") 204.71 mm (8")	

** The U Value is the insulated glass' capacity to resist heat transfer. The lower this value, the better the window insulates.

*** The Energy Rating balances a product's U Value with its solar heat gain and airtightness. A higher value indicates a more energy efficient product.
